

Establishing the MOH Saudi Journal of Health Systems Research

To enable policy making & healthcare systems research in the Kingdom

Vision

A journal with impact that drives growth and promotes innovative health systems research in the region and across the globe

Mission

Provide high-quality peer-reviewed, open access publications and knowledge to the healthcare system, community, policy makers and regulators for effective decision making

Journal's Subject Areas & Topics

Health systems, reform and governance

Health workforce, services and economics

Digital health and health informatics

Multi-disciplinary in health systems

Journal Aims & Scope

“The **Saudi Journal of Health Systems Research** is a peer-reviewed, **open access** online journal dedicated to healthcare management. It is the official publication of the Kingdom of Saudi Arabia’s Ministry of Health and the Ministry’s voice to the global scientific community. This journal welcomes research papers that cover trends and techniques in **health systems** and includes articles in **hospital and healthcare management and policies, health economics and digital health**. In addition, papers covering multidisciplinary topics with impact on the health sector are welcome. Manuscripts can be submitted in the form of original research articles, case studies and reports, review articles, systematic reviews, discussions, guidelines and brief reports. In this forum, clinicians and researchers can communicate their findings to a broader scientific community and contribute to the development of public health and wellbeing.”
