Karger's Subject Packages

Karger offers customized packages focusing on a single research or medical subject. Karger's Subject Packages – comprising eJournals and/or eBooks – provide carefully selected content to meet the increasing demand for specific information of researchers, specialists, and practitioners in hospitals, research centers, the pharmaceutical industry, and other professional institutions.

For more details, see karger.com/collections/topic-article-package and for your enquiries please contact us at collection@karger.com.

Karger's Fast Facts Collection

The Fast Facts medical handbook series comprises concise guides for busy healthcare professionals and practical workbooks for patients. Designed to advance knowledge in health, these refreshingly readable resources are packed with relevant information on specific diseases, their diagnoses and management. Perfect primers to get up to speed – fast.

Fast Facts access is free of charge! More details about the series and access options: karger.com/pages/fast-facts

Order Information

Subscriptions

Karger offers three types of subscription: Print, Online, and Combined print/online.

The basic annual subscription rate is the same for all three delivery forms; however, an upgrade fee for the Combined print/online subscription is levied, and there is a postage and handling charge for Print and Combined print/online.

Subscription rate model

Print:	100% + Postage & Handling
Online:	100%
Combined print/online:	100% + Online upgrade fee + Postage & Handling

For personal subscription prices, please consult our website at karger.com/pages/journals

For Online and Combined print/online subscriptions, please also consult our site licenses at karger.com/pages/terms-and-conditions

Ordering

Journal subscriptions as well as Collection and Package orders can be placed at any bookstore, subscription agency, directly with Karger Publishers, or a Karger representative.

Contact details of the Karger offices and representatives can be found at karger.com/pages/contact-and-support. Every journal homepage offers an order form to print out or fill in online. Orders can also be emailed to orders@karger.com.

Prices

All prices are based on Swiss Francs and subject to change. Prices in EUR are valid for eurozone countries only, prices in USD are valid for the USA and Latin America only. Prices quoted do not include delivery charges and are excluding VAT and local sales tax. Where required, VAT is applied at the appropriate rate and shown separately on the final invoice.

Subscribe to Open – Pilot

After a successful first year, we are continuing our "Subscribe to Open" pilot with the journals Pediatric Neurosurgery and Developmental Neuroscience. If subscriptions are renewed, we make that year's volume of the journals Open Access and publish the articles Open Access without levying APCs. Subscribers who participate in the pilot receive a 5% discount off the year's subscription price. For more details please contact your Karger representative.

Subscription Period

The annual rate covers a full journal subscription year (all volumes assigned to the respective year of publication). New subscriptions placed during the year will begin with the delivery of the first issue for that subscription year. An online subscription allows access only to issues published in the subscription year. For assistance, please contact our help desk at service@karger.com.

Authorized Access

Access is regulated via IP address(es) and/or user ID/password. Karger supports both Shibboleth and OpenAthens.

Back Volumes and Single Issues

Information on availability and prices of single print issues, print back volumes, or electronic backfiles can be obtained from service@karger.com.

For the complete order information, please refer to our website at karger.com/pages/catalogue-and-pricing.

The price list is also available online at karger.com/pages/catalogue-and-pricing. Please register for electronic delivery at karger.com/pages/catalogue-and-pricing

We are open for Open

Karger Publishers is expanding its Open Access portfolio by piloting Subscribe to Open (S2O) in a push for more equitable science communications.
